

ATNI DRUG PREVENTION SUMMIT

SWINOMISH CASINO & LODGE

AUGUST 8-9, 2018

AGENDA

Overall Summit Critical Questions: tribal prevention, treatment & recovery leaders should come to the summit with their prayers and dreams for the full spectrum of recovery services for their people. Our work and words at the **ATNI Drug Prevention Summit** represent our collective thoughts and endeavours for our communities health and intergenerational healing. With this goal in mind we would like our leaders to challenge presenters and themselves toward this collective vision. We only grow in the directions of the questions we ask ourselves, to this end **ATNI** will collect and distribute the responses of **ALL attendees** of the Summit to the following two questions:

1. If your tribe had all of the resources (\$) they needed too invest in prevention, on-demand treatment and recovery support **what would you do first and why?**
2. What would you community **look like** if you had a fully funded spectrum of recovery support? i.e. programs & staffing, physical space and infrastructure, political advocacy & engagement by and for people in recovery, clinic and health services, accountability and responsibility structures etc.

Day 1 - August 8th, 2018
