PREAMBLE

We, the members of the Affiliated Tribes of Northwest Indians of the United States, invoking the divine blessing of the Creator upon our efforts and purposes, in order to preserve for ourselves and our descendants rights secured under Indian Treaties, Executive Orders, and benefits to which we are entitled under the laws and constitution of the United States and several states, to enlighten the public toward a better understanding of the Indian people, to preserve Indian cultural values, and otherwise to promote the welfare of the Indian people, do hereby establish and submit the following resolution:

WHEREAS, the Affiliated Tribes of Northwest Indians (ATNI) are representatives of and advocates for national, regional, and specific tribal concerns; and

WHEREAS, ATNI is a regional organization comprised of American Indians/Alaska Natives (AI/AN) and tribes in the states of Washington, Idaho, Oregon, Montana, Nevada, Northern California, and Alaska; and

WHEREAS, the health, safety, welfare, education, economic and employment opportunity, and preservation of cultural and natural resources are primary goals and objectives of the ATNI; and

WHEREAS, from 2006 to 2012, of the drug overdose deaths, 65.3% (294) of AI/AN deaths were from prescription drugs and of the prescription drug overdose deaths, 77.2% (227) of AI/AN deaths were from opioid overdoses; and

WHEREAS, tribes are in need of additional resources directly from the federal government to combat the multitude of problems related to the opioid crisis and to address this crisis through a comprehensive approach; and

WHEREAS, funding must be available to Tribal Epidemiology Centers for data and surveillance of the opioid crisis; and

WHEREAS, the Substance Abuse Mental Health Services Administration (SAMHSA) provides funding only to states through State Targeted Response to the Opioid Crisis Grants (“STR”); and

WHEREAS, the government-to-government relationship between the federal government and tribes, as well as the federal trust responsibility and treaty obligations, support direct funding from SAMHSA to tribes and tribal organizations; and

WHEREAS, tribes should not be required to go through the state to access federal funding; and

WHEREAS, tribes request access to STR funding, and other SAMHSA funding, directly from SAMSHA; and

WHEREAS, tribes request that all opioid funding available to tribes should ensure equitable distribution of funds to all tribes and reduce the administrative burden on tribes accessing these funds, particularly our smaller tribes with less capacity to apply for and compete with larger tribes; now

THEREFORE BE IT RESOLVED, that ATNI calls on Congress to support direct funding to tribes and tribal organizations to address the opioid crisis and direct funding to support surveillance and research by tribes, tribal organizations or Tribal Epidemiology Centers under SAMHSA State Targeted Response to Opioid Crisis Grants (STR) and other SAMHSA funding sources or opportunities; and

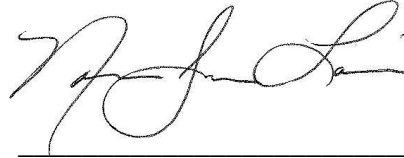

BE IT FURTHER RESOLVED, that ATNI calls on Congress, and SAMHSA, to ensure that all tribes and tribal organizations have access to STR funding, and other SAMHSA funding sources or opportunities, to address the opioid crisis with consideration of a reduced administrative burden to ensure that there are no barriers for tribes and tribal organizations to access these funds.
